

The Year-Round Vegetable Garden - An Organic Approach for Maryland

Saturday, April 19th & Sunday April 20th, 2008

Time: 8:30am to 4:30pm

Class location: The Enviro Center
7761 Waterloo Road, Jessup MD 20794

This is a two-day workshop designed to provide a framework for creating the successful design and implementation of a productive organic vegetable garden in Central and Southern Maryland.

What topics will be covered?

The philosophy and principles of the organic approach to gardening, soils, composting, planning, planting, maintaining, garden pests, gardening by season, use and care of tools.

About the Presenter

Shane J. LaBrake is an Independent Agricultural Consultant and Trainer based in Accokeek, MD. In 1996, Shane began to develop a "land-based training" program designed to further develop the skills and knowledge of individuals planning to operate their own small-scale organic vegetable farms. To date, 30 apprentices have worked alongside Shane at the Accokeek Foundation's Center for Land-Based Training. Throughout his years at the Accokeek Foundation, Shane presented workshops at many sustainable agriculture conferences in the Northeastern States.
