

**GREEN BUILDING
INSTITUTE**

Envisioning a world where green building is the norm.

Intro to Home Energy Audits

- What is an energy audit?
- What can you do to increase energy efficiency without an audit?
- What do energy auditors do to evaluate your home?
- What are the steps you need to take prior to getting an energy audit?
- What are the common misconceptions about home energy auditing?
- What are the features and benefits of different types of energy audits?
- How much does it cost?
- What should you look for in an energy auditor?

Date: Thursday March 27, 2008

6:45 p.m. – 7:00 p.m. Check-In
 7:00 p.m. – 9:00 p.m. Intro to Home Energy Audit

Instructor:

Jim Conlon has a degree in Biology from Loyola University, Chicago with a concentration on Conservation Biology and Ecosystem Management. His professional experience includes real estate, advertising and renewable energy marketing. Jim completed the Certified Home Energy Rating System (HERS) Rater Training Course in the fall of '06. He enjoys spending time on residential energy conservation and efficiency as an integration of his academic and professional experiences. Jim recently started his new business, Elysian Energy, LLC., which focuses on analyzing energy usage to determine best course of action to reduce energy usage and bills!
