

GREENBUILDING
INSTITUTE

ENVIRONMENTAL LANDSCAPING

Sunday March 21st, 2010

1:00 – 3:00 pm

CLASS LOCATION

CARROLL COMMUNITY COLLEGE
Business Training Center, Room T317

Despite its beauty, not all landscaping lives in complete harmony with its environment. This class will explore the elements of landscape design that create both site enhancement and sustainability. Learn how to plan a design that works effectively with natural site layout and, at the same time, assists with the heating and cooling needs of the structure. Find out how to choose native plants that will be resistant to drought and disease. Get tips from experts in sustainable landscape on how to get started on your projects.

Registration Fees \$35:

REGISTER ONLINE
